

## **SAMPLE LEGISLATION**

### **SEARCHING CODES ONLINE**

The Codes online are the best source for Sample Legislation. Being able to search these 24/7 gives you instant access to very specific information.

To search the Codes we currently have on the Internet for Sample Legislation go to the Home Page of this website and click on the “Quick Link” in the top right hand corner. This will take you to the list of Municipalities we have on line.

You can search all the codes on line simultaneously by clicking on the “Search All Codes” button; on the next page that opens, in the top left search box, type in the subject you’re interested in and click on the “Go” button. The top right screen will open with the first hit and the bottom right screen will list the rest of the hits which you can click on and follow to the next sample.

If you want to search for a specific phrase or term and only that, enter it in quotation marks (e.g. “stormwater management”). Otherwise it will retrieve all instances of the words you type as long as they’re within a certain proximity of each other.

Also, keep in mind that the search process is very specific. Stormwater (no space) and storm water (with a space between) will return a different list of hits.

If you’re looking for Sample Legislation on the latest hot topics, go to our “WHAT’S NEW” page and select from the links there.
